OF THE
BUILDING DEPARTMENT

YEAR ENDING DECEMBER 31, 1971

BOSTON, MAY 1, 1972.

HON. KEVIN H. WHITE,
Mayor of Boston.

SIR:

In accordance with the provisions of Section 115, Chapter 479, of the Acts of 1938, as amended, I submit herewith a brief report of the activities of the Building Department during the year 1971.

RICHARD R. THUMA, JR.,
Building Commissioner.

DEPARTMENT ORGANIZATION

The Building Department was established by Chapter 280 of the Acts of 1871,

“An Act to Provide for the Regulation and Inspection of Buildings, the More Effectual Prevention of Fire and the Better Protection of Life and Property in the City of Boston,”

and came into being on October 2, 1871.

This act, with various revisions and amendments, controlled the erection and alteration of buildings and related matters until July 16, 1892, when it was superseded by Chapter 419 of the Acts of 1892. This act, although amended from time to time, remained in effect until August 1, 1907, when it was superseded by Chapter 550 of the Acts of 1907, which remained as the Building Law of the City of Boston until 1943.

The present Building Code, Chapter 479 of the Acts of 1938 as amended,

“An Act for the Codification, Revision and Amendment of the Laws Relative to the Construction, Alterations, and Maintenance of Buildings and Other Structures in the City of Boston,”

was passed by the Legislature on June 27, 1938, with the provision that it take effect upon its acceptance by the Boston City Council. Acceptance by the Council was delayed pending granting by the Legislature to the Council authority to make revisions in the law as passed by the Legislature. This authority was granted by Chapter 217 of the Acts of 1938; whereupon the Council proceeded to hold a series of public hearings on proposed amendments submitted by architects, builders, property owners, and various civic organizations. As a result of these hearings numerous amendments to the act were accepted by the Council, and on May 10, 1943, Parts 1 to 25 of the act were approved. Parts 26 to 32 were approved by the Council on December 21, 1943. Part 33, “War Provision,” and Part 34, “Fall-out Shelters,” were added by later amendments. Since 1943 the code has undergone several minor and three major amendments or revisions. Part 23, “Live and

Dead Loads," Part 28, "Steel and Iron," and Part 29, "Excavations and Foundations," have been completely revised, updated, and rewritten, and are incorporated in recent reprints of the code. Part 25, "Wood," Part 26, "Reinforced Concrete," and Part 27, "Precast Gypsum Concrete," are now undergoing revision and updating.

The Building Code places upon the Building Department the duty of inspecting the erection, alteration, repair, moving, or demolition of all buildings or structures, except those specifically exempted by Section 107 of the code, and the issuance of permits therefor. The department also issues permits for and inspects the installation, repair, replacement, or extension of all utilities such as plumbing, gas fitting, electrical work, elevators, fire-extinguishing apparatus, engines, dynamos, generators, boilers, heaters, ovens, and other heat-producing apparatus governed by the code.

The department administers the zoning regulations formulated and adopted by the Boston Zoning Commission under authority of Chapter 665 of the Acts of 1956. These regulations, which became effective on December 31, 1964, superseded the original Zoning Act of June 5, 1924. The provisions of Chapter 143 on the General Laws, insofar as they are applicable to the City of Boston, are also administered by the Building Department. The department inspects and certifies all places of assembly such as stores, restaurants, taverns, dance halls, and places of similar occupancy accommodating fifty or more persons.

Also placed in the department by ordinances of the City Council, but not under the control or supervision of the Building Commissioner except in the matter of communicating with the Mayor and submitting annual reports of their activities, are the Board of Appeal, the Board of Examiners, the Board of Zoning Adjustment,* and the Zoning Commission. Chapter 616 of the Acts

* The Board of Zoning Adjustment ceased to exist with the taking effect of the new zoning regulations formulated under Chapter 665 of the Acts of 1956, on December 31, 1964.

of 1955 established in the Building Department the Beacon Hill Architectural Commission, which Commission has the duty of passing on the appropriateness of all changes in the exterior architectural features of buildings in the Historic Beacon Hill District. Reports of these Boards are incorporated herein.

Chapter 616 of the Acts of 1955, in order to promote the general welfare of the public and to maintain the area as a landmark in the history of architecture and as a tangible reminder of old Boston as it existed in the early days of the Commonwealth, created the Historic Beacon Hill District, bounded

“southerly by the northerly sideline of Beacon street; westerly by a line parallel with and 150 feet distant westerly by the westerly side of Beaver street; northerly by Beaver place; easterly by Brimmer street; northerly again by Byron street; westerly again by a line parallel with and eighty feet distant westerly from the westerly sideline of Charles street; northerly again by the southerly sideline of Charles street; northerly again by the southerly sideline of Revere street; westerly again by the westerly sideline of Myrtle street; northerly again by the southerly sideline of Myrtle street; and easterly again by the westerly sideline of Hancock street and said sideline extended southerly to Beacon street; excluding, however, from said area land of the Commonwealth and the estates numbered 26 to 88, inclusive, and 98 to 136, inclusive, on Myrtle street,”

in which no permit may be issued by the Building Department unless certificate of appropriateness or certificate of nonapplicability of the statute, issued by the Beacon Hill Architectural Commission, which was established under the act creating the historic district, or that no exterior architectural feature was involved, was on file in the office of the Building Commissioner.

The historic district was enlarged and extended by Chapter 315 of the Acts of 1958 to include a contiguous area bounded

“southerly by Byron street; westerly by Brimmer street; southerly again by Beaver place; westerly again

by Embankment road; northerly by Pinckney street; and easterly by a line parallel with, and eighty feet distant westerly from, the westerly line of Charles street."

Chapter 622 of the Acts of 1963 further enlarged and extended the district to include an area contiguous thereto bounded

"southerly by Myrtle street; including, however, the estate numbered 26 to 88, inclusive, and 98 to 136, inclusive, on Myrtle street; southerly by Revere street; westerly by the alley located to the rear of the estates numbered 130 to 140 Charles street; northerly by the northerly boundary line of the estates numbered 140 Charles street; and by said boundary line extended diagonally in an easterly direction across Charles street, to Putnam avenue; northerly by Putnam avenue; westerly by West Cedar street; northerly by Phillips street; easterly by the rear property lines of the estates numbered 79 to 61 West Cedar street; northerly and westerly by the northerly property lines of the estates located at the northerly ends of Bellingham place, Sentry Hill, and Goodwin place, and the northerly sideline of the estate numbered 37 Grove street; easterly by Grove street; northerly by Revere street; easterly by Irving street; but including the estates located on Rollins place,"

and also another contiguous area bounded

"northerly by a line parallel to and forty feet distant southerly from the southerly sideline of Cambridge street; easterly by Bowdoin street; southerly by Derne and Myrtle streets; westerly by Irving street; generally southerly by the northerly, easterly, and westerly boundaries of the area defined in section one B; southerly by Revere street; westerly and northerly by Embankment road; and northerly by Charles Street Circle, and including the estates located as 131 and 141 Cambridge street and 2-16 Lynde street."

Chapter 625 of the Acts of 1966, which became effective on December 1, 1966, created a "Back Bay Residential District" and established within the framework

of the Boston Redevelopment Authority a "Back Bay Architectural Commission" which is empowered to pass on all building construction and related matters within the district. The Building Commissioner may not grant permits for construction within the area unless the application therefor bears a certificate from the commission that no exterior architectural feature is involved or is accompanied by a certificate of design approval.

The "Back Bay Residential District" comprises the area bounded as follows:

"Westerly by the easterly sideline of Charlesgate East; northerly by the southerly sideline of Back street; easterly by the westerly sideline of Embankment road; northerly by the southerly sideline of Beacon street; easterly by the westerly sideline of Arlington street; southerly by the northerly sidelines of the public alleys between Newbury street and Commonwealth avenue, from Arlington street to the westerly sideline of Massachusetts avenue, said lines being extended across intervening streets and Massachusetts avenue; westerly by the westerly sideline of Massachusetts avenue; and southerly by the northerly sideline of Newbury street."

Chapter 737 of the Acts of 1960 established statewide regulations relative to gas fitting in buildings throughout the Commonwealth. These regulations superseded the Boston Gas Fitting Regulations on February 1, 1961.

Chapter 168 of the Acts of 1962 transferred from the Building Department and placed in the Traffic Commission the licensing, supervision and control of all open-air parking spaces. This transfer became effective on July 12, 1962.

Chapter 623 of the Acts of 1962 amended Section 121 of the building code by repealing or revoking all provisions of the code relative to the examination and licensing of journeymen and master gas fitters and placing such powers and duties in a board established in the Massachusetts Department of Public Utilities by Chapter 737 of the Acts of 1960, effective October 3, 1962.

Under Chapter 143 of the General Laws, Section 71G, as amended by Chapter 616 of the Acts of 1963, effective November 5, 1963, the granting of licenses to operate elevators throughout the Commonwealth was placed under the jurisdiction of the Massachusetts Department of Public Safety.

A reevaluation of the first five chapters of the new Building Code is under way.

SIXTEENTH ANNUAL REPORT

OF THE

BEACON HILL ARCHITECTURAL COMMISSION

FOR THE YEAR ENDING DECEMBER 31, 1971

HON. KEVIN H. WHITE,

Mayor of Boston.

DEAR MR. MAYOR:

This report for the year 1971 is the sixteenth annual report of the Beacon Hill Architectural Commission; in accordance with the provisions of Chapter 616 of the Acts of 1955 as amended, it is submitted herewith through the Building Commissioner.

The Commission is responsible for passing on the appropriateness of all changes in the exterior features of all buildings within the Historic Beacon Hill District. Twelve meetings were held during the year. Fees received for certificates of appropriateness were \$185. Cases were disposed of as follows:

Certificates of appropriateness issued	34
Applications rejected	5
Applications withdrawn	1
Applications held over	3
Certificates of nonapplicability issued	41
Approved for ordinary repairs	12
Advisory opinions given	5

The Commission has processed 1,954 cases in the seventeen years of its operation. We record the recent passing of Ralph Boyd, Esq., a member of the Commission for the years 1967 to 1971, the nominee of the Beacon Hill Civic Association. Mr. Jesse R. Fillman, of 16 Lime Street, was appointed in May of 1971 as General Boyd's replacement. The Commission is now composed of the following members:

<i>Member</i>	<i>Nominated by</i>	<i>Term Ends</i>
Joseph L. Eldredge	The Mayor	
John Codman	Boston Real Estate Board	May 1, 1972
John P. Bennett	Boston Society of Architects	May 1, 1973
James D. McNeely	Society for the Preservation of New England Antiquities	May 1, 1974
Jesse R. Fillman	Beacon Hill Civic Association	May 1, 1976

The alternate members of the Commission authorized by Section 1 of Chapter 429 of the Acts of 1965 are as follows:

<i>Alternate Member</i>	<i>Nominated by</i>	<i>Term Ends</i>
Benjamin Cook	The Mayor	
Alexander McIntyre	Beacon Hill Civic Association	May 1, 1971
Frederick W. Lord	Boston Real Estate Board	May 1, 1972
George Notter, Jr.	Boston Society of Architects	May 1, 1973
Harriet Ropes Cabot	Society for the Preservation of New England Antiquities	May 1 1974

The officers for 1972 and 1973 are: Joseph L. Eldredge, Chairman; John Codman, Acting Vice-Chairman; Richard L. Granara, Jr., Secretary.

We look forward to the creation of the Landmarks Commission as a way of bringing to other sections of the city the same cultural, social, and economic benefits now enjoyed by the Back Bay and Beacon Hill. Our Commission has worked to advise and support the activities of the Landmarks staff because we feel that a well-structured preservation policy would do much to stabilize and direct growth in the inner city. There is an increasing interest in the use of "architectural conservation districts" as a method of allowing sound residential neighborhoods near the center of the city to protect themselves against inappropriate development.

The question of how the two existing architectural districts can be best related to the Landmarks Commission has received serious attention. The Beacon Hill Architectural Commission, together with the Beacon Hill Civic Association, is committed to develop a workable relationship with the Landmarks Commission in the next few months. We understand that the Back Bay Architectural Commission will join us in this effort.

Very truly yours,

JOSEPH L. ELDREDGE.

HON. KEVIN H. WHITE,
Mayor of Boston.

DEAR SIR:

The Zoning Commission submits herewith, in accordance with Section 25, Chapter 3, Revised Ordinances of 1961, its thirteenth annual report, containing a statement of its acts and doings along with its receipts and expenditures for the year ending December 31, 1971.

†Mr. Eric Powell was nominated by the Greater Boston Chamber of Commerce and appointed by the Mayor to serve the unexpired term of Mr. Melvin B. Miller, who resigned in 1970. He was duly sworn by the City Clerk on January 28, 1971.

ANNUAL MEETING

In compliance with the provisions of Section 9, Chapter 3, of the Revised Ordinances of 1961, the Commission held its annual organization meeting on May 28, 1971, when the following officials were elected: Mr. Richard B. Fowler, Chairman*; Mr. Alfred Gross, Vice-Chairman*; Mr. Mace Wenniger, Secretary.

The following appointment was also made: Mr. Mace Wenniger, Advisor.

On November 29, 1971, Mr. Mace Wenniger submitted his resignation as Secretary to the Zoning Commission. Miss Elizabeth Dakers was elected Secretary in his place on the same date.

LEGISLATION

During the year there were no changes made in the Zoning Enabling Legislation, Chapter 663 of the Acts of 1956, by the Massachusetts Legislature.

ACTIVITIES

Public hearings, executive sessions, and inspection trips were held as found necessary, the staff of the Boston Redevelopment Authority rendering such assistance as was essential in the way of investigations, field surveys, drafting, and secretarial work. A detailed record of proceedings has been filed in the office of the Commission on the ninth floor of City Hall. This record is open to public inspection, and notice of decision has been mailed to all parties in interest.

Following is a summary of action taken on applications.

*Indicates reappointment or reelection.

BOARD OF EXAMINERS

The Board of Examiners was created by city ordinance in 1913 and reestablished under legislative act in 1938. The Board acts upon applications of persons desiring to be licensed in Boston as construction superintendents, approving or rejecting said applications under certain rules and regulations adopted as procedure by the Board. The members are appointed by the Mayor and are delineated under the ordinances as an architect or engineer, a contractor or mechanic, and a lawyer or a person with legal qualifications.

During 1971 the Board heard four complaint cases, of which three were dismissed and one license was suspended

Following is a table of 1971 activities:
